Front-end Developer / GUI Designer Internship

Amsterdam – six months

You will work on actual projects, under the mentorship of senior Pilotfish designers / front-end developers. You will experience the life of a developer/designer and be involved in client projects, being given responsibility for particular segments of the work for both renowned companies and startups.

We will welcome you in our international, multicultural and multidisciplinary team, constantly shaping both yours and our future towards the greatest it can be.

You will be

An intern in our Amsterdam office directly involved in:
- Web/app development based on design concepts
- Visual design, usability and interaction concepts as part of a project team or independently
- Brainstorms and concept generation phases with the design team
- Creating interactive GUI mockups

You are

A creative and proactive front-end developer with a good feel for graphic design, an eye for details and a passion for pushing the boundaries of digital media and physical interfaces.

You have a great ability to work in a multi-cultural and multi-disciplinary English speaking environment with industrial designers, GUI designers and engineers and you're ready to surprise us with your fresh ideas.

You have

- Cross browser mark-up and styling skills (html5, css3) and some knowledge of CSS preprocessors (scss, sass) or would love to learn.
- Some javascript skills and are hungry for more, some experience with most common front-end libraries (jQuery, bootstrap, VMC.)
- Experience or interest in Git version control management software
- Experience with responsive design

- General understanding of npm, terminal, build tools, databases or would like to learn.
- Good graphic and typographical skills
- Knowledge in Adobe Suite (Photoshop/Illustrator)

A big plus is:

- Hands on experience with or interest in interactive prototyping platforms and frameworks is a big plus (Actionscript, iOS, .net/c#/ XAML, C++/openFrameworks, processing along with hardware prototyping platforms like Arduino, Kinect)
- Interest in native development (e.g. Android, iOS) or with a cross platform mobile platform (eg. Phonegap)
- Experience or interest in product design

We are excited to receive your application!

Please fill in the application form available on our website and send it together with your letter of motivation and digital portfolio (PDF or URL) to jobs.nl@pilotfish.eu.

Please note that due to the high number of applications coming our way, we are unfortunately unable to always provide a written reply. However, you can always call us at +31 (0) 20 4706111 and we will provide an update on your application.
